Chapter 7: Communication with Employees

Proactive Communication
Keep Complete Record
Two Types of Communication
Employee Brochure
Meeting with Your Employee
First Day Phone Call
Weekly Contact
Weekly Meeting Guidelines
Scheduling Weekly Meetings
Reducing Attorney Involvement

Chapter 8: Working with Your Insurance Adjusters or TPA.

Claims Adjusters
What Is a TPA
Adjuster File Assignments
Dedicated vs Designated Claims Units
Bundled and Unbundled Services
Deductible vs Control
How to Select a TPA
Learning About Your Claim Partners
Preparing for the TPA Visit
Meeting with Your Claims Handler
Chairside Visits
Doing a National Rollout
Vendor Day
Account Handling Instructions
Reviewing Open Claims with the TPA
Reserving Practices
Information Needed to Establish Reserves
Reserve Calculation Worksheets
Reasons Reserves Are Higher Than Expected
Verifying Reserves Accuracy
Plan of Action (POA)
How to Evaluate a TPA
Medical Management Quality Review
Quality Control File Audit
File Reviews and File Audits
Audit Timing
File Review Procedures
File Audit Procedures
File Audit Participants
MD Participation
How to Control Leakage
What Is Leakage
Types of Leakage
Causes of Leakage
Leakage Claim Audits
Leakage Identification Checklist
Chapter 9: Safety and Loss Control

How to Develop an Effective Safety Program

Initial Assessment

Assignment of Roles and Responsibilities

Record Keeping

What OSHA Requires

Select Safety Committee, Chairman, and Recording Secretary

Safety Committee Responsibilities

Safety Committee Meetings

Communication Methods

Conduct a Thorough Workplace Assessment

Hazard Correction/Safety Work Order Tracking System

Develop Written Policies, Procedures, and Programs

Accident Investigation Program

Education and Training: Employees, Supervisors, and Managers

Who Receives Training

Safety Equipment Required Signs

Communicate Safety Often

Safety Awareness Posters

Safe Days Posters

Safety Recognition and Incentive Programs

Employee Screening

Hiring Safe Employees

Job Analysis

Screening Tools

Chapter 10: Wellness Programs

Wellness in the Workplace

Benefits of Wellness Programs

Incentives for Wellness

Negative Effects of NOT Having a Wellness Program

Types of Wellness Programs

Weight Control

Smoking Cessation Programs

Depression/Anxiety Awareness Treatment

Migraine Headache Management

Substance Abuse Treatment

Drug, Alcohol, and Substance Abuse Policy

Drug, Alcohol, and Substance Abuse Testing

Putting Wellness Programs into Practice

Appendix A: Glossary of Abbreviations

Appendix B: Documents Referenced in Book

INDEX - Volume I
# Table of Contents

As an information tool, the Table of Contents includes Pre-Loss Planning and Post-Loss Implementation Chapters.

## Chapter 11: Return to Work and Transitional Duty

- Cost Savings ............................................................................................................. 1
- Measuring Effectiveness of Return-to-Work Programs ........................................... 1
- Transitional Duty Policy Overview ......................................................................... 2
- Benefits ...................................................................................................................... 2
- Program Goals ......................................................................................................... 2
- Drafting a Transitional Duty Policy ........................................................................ 2
- What to Include in a Transitional Duty Policy ....................................................... 3
- Characteristics of Transitional Duty Assignments ................................................ 4
- Transitional Duty Program Pay Rate ....................................................................... 4
- Estimating the Duration of an Injury ....................................................................... 5
- Medical Treatment Guidelines .............................................................................. 5
- Medical Treatment and Comorbid Conditions ....................................................... 5
- Using Medical Treatment Guidelines ................................................................... 5
- Using Injury Treatment Guidelines to Estimate Cost Savings ............................... 6
- Types of Transitional Duty ...................................................................................... 7
- Modified Duty ......................................................................................................... 7
- Alternate Work ......................................................................................................... 7
- Alternative Off-Site Jobs ......................................................................................... 7
- Non-Profit, Volunteer, or Charitable Positions ....................................................... 7
- Transitional Duty Tips ............................................................................................ 8
- Putting Return-to-Work into Action ...................................................................... 9
- How to Identify Transitional Duty Jobs ................................................................. 9
- Employees Who Never Return to Work ............................................................... 9
- Overlapping Benefits .............................................................................................. 10
- Americans with Disabilities Act (ADA) Key Points .............................................. 11
- Coordinating Workers’ Compensation with Federal and State Leave Statutes .... 12
- Workers’ Compensation, ADA, and FMLA Interactions ....................................... 12
- Case Study ............................................................................................................. 14
- Working with Unions ............................................................................................. 15

## Chapter 12: Other Indemnity Cost Containment Methods

- Work Hardening ..................................................................................................... 19
- Independent Medical Evaluations (IME) ............................................................... 19
- Before the IME ....................................................................................................... 20
- Customize Medical Inquiries ................................................................................ 20
- Timeframes for Scheduling and Obtaining IME .................................................... 20
- Functional Capacity Evaluations (FCE) ................................................................. 21
- Retraining Programs ............................................................................................... 22
- Telephonic Disability Intervention ...................................................................... 22
- Translation Services .............................................................................................. 23
- Transportation Services ......................................................................................... 24
- Layoff Planning ...................................................................................................... 25
### Chapter 13: Directing Medical Care

- Gain Cooperation from Medical Providers .............................................................. 27
- Types of Doctors ........................................................................................................ 28
- Remote Health Services .......................................................................................... 28
- Methods of Doctor Selection ................................................................................... 29
- If the Employer Can Direct Care ............................................................................. 29
- If the Employer Cannot Direct Care ......................................................................... 29
- Ten Considerations for Your Company Doctor ....................................................... 29
- Eleven Reasons NOT to Select a Doctor ................................................................. 30
- The PRIMARY Treating Physician (PTP) ................................................................. 30
- Understand the PTP’s Perspective ............................................................................ 30
- Information You Need from the Doctor .................................................................. 31
- Understanding KEY Medical Injury Terms ............................................................ 31
- California Medical Provider Network (MPN) ........................................................ 32

### Chapter 14: Medical Cost Containment

- Medical Cost Containment Services .................................................................... 35
- Utilization Review Accreditation Commission Certification .................................... 35
- Preferred Provider Organizations .......................................................................... 36
- Injury Triage .............................................................................................................. 37
- Telephonic Nurse Case Management (NCM) .......................................................... 38
- Field Case Management (FCM) .............................................................................. 39
- Mental Health Registered Nurses .......................................................................... 40
- Chronic Pain Programs ............................................................................................ 40
- An Aging Workforce ................................................................................................ 40
- Medical Review ....................................................................................................... 41
- Medical Advisors and Medical Directors ............................................................... 42
- Independent Medical Evaluation (IME) ................................................................. 43
- Durable Medical Equipment (DME) ....................................................................... 44
- At-Home Recovery Services ................................................................................... 44
- Medical Bill Review ................................................................................................. 45
- Medical Fee Schedules ............................................................................................ 45
- Usual and Customary ............................................................................................... 45
- Hospital Bill Reviews .............................................................................................. 46
- Using a Diagnosis Related Groups (DRG) Review Company .................................. 46
- Cost Savings Using DRG ......................................................................................... 46
- Medical and Hospital Bill Review Considerations ............................................... 46
- Chiropractic Care .................................................................................................... 47

### Chapter 15: Fighting Fraud and Abuse

- When to Investigate a Claim .................................................................................... 49
- Types of Investigation .............................................................................................. 50
- Red Flags of Fraud .................................................................................................. 51
- Medical Terminology Used to Identify Malingering ............................................... 52
- Important Times to Use Surveillance ....................................................................... 53
- How to Use the Results ........................................................................................... 53
- When Not to Use Investigation ............................................................................... 53
- Reviewing Investigation Reports and Videos ......................................................... 54
- Avoid “Good Day/Bad Day” Syndrome .................................................................. 54
- Additional Fraud Controls ...................................................................................... 55

Chapter 18: Claims Resolution and Settlements

When and How to Settle a Workers’ Compensation Claim

Action Plan

Disability Rated Losses

Disability Scheduled Losses

Jurisdictional Issues

Local Influences

Include Future Medical in the Settlement

Selecting Physicians to Obtain a Fair Disability/Permanency Rating

Challenging Impairment Ratings

Medical Issues

Disputed Issues

Offsets Against Other Payments

Social Security Disability Benefit Offsets

Social Security Reverse Offsets

States with Reverse Offset

Prior Injury Offsets

Subrogation

Pre-existing Conditions and Second Injury Funds

Availability of Future Employment in the Marketplace

Voluntary Resignations

Strengths and Weaknesses of Both Sides

Negotiations

Waivers and Releases

Include Medicare in Release

Medicare Set-Asides

Conditional Payment and Final Demand

Pharmacy Component of Medicare Set-Asides

Structured Settlements and Annuities

Structured Settlement Benefits

Structured Settlement Vendor Selection Criteria

California Settlement Process
Chapter 19: Federal Employees’ Compensation Act

- Federal Employees and Workers’ Compensation
- Paying for FECA Costs
- Administering FECA Claims
- Selection of Medical Providers
- Medical Benefits
- Lost Wages Federal Employees Receive
- Permanent Disability or Death
- Registering as a Federal Medical Provider
- Challenges in Controlling Costs
- Traditional Cost Control Techniques
- Independent Medical Examinations
- Cost Containment Vendors and Services
- Gaining Management Commitment
- Return-to-Work Programs
- Federal Employees Return-to-Work: Transitional Work (before Maximum Medical Improvement)
  - Defining and Determining Maximum Medical Improvement
  - Transitional Duty Work and Assignment
  - Transitional Duty Barriers Checklist
  - Role of the DOL in Transitional Work
- Federal Employees Return-to-Work: Alternative Work (after Maximum Medical Improvement)
  - Alternative Employment
  - Vocational Rehabilitation and Retraining
  - Difference between an Impairment and a Disability
